WARM YOUR HEART ~ WARM YOUR BED

Atlanta, GA – January 2004: We 're pleased to welcome our newest customer to Amware Logistics Services. Based in the United Kingdom, our latest growth-oriented customer is a leader in producing microwaveable plush toys -- teddy bears -- which warm the bed *and* the heart. They are partnering with the Amware facility in Atlanta, Georgia to establish a forward retail distribution point for US-based sales.

On a monthly basis, Amware will be receiving multiple ocean containers of products requiring several value -added services including quality control and inspection. Each container will be broken down into pallet quantities and stored for later distribution. In addition, we'll provide Pick and Pack service for direct fulfillment of all online orders generated from their website. At that point, the teddy bears will be deployed to customers all across the United States in both individual and case-lot bunches.

The Atlanta, GA facility is an ideal location for this project based on its proximity of to the point of U.S. entry at Savannah, Georgia. Amware will be managing the local

cartage to Atlanta as well as central dispatch of all outbound distribution into the US market.

Amware Logistics Services, Inc.

Amware Logistics Services is dedicated to craftsmanship in delivering customer-focused, quality-driven, cost-appropriate logistics solutions for our customers. With national reach, operational excellence, flexible services, and careful monitoring every step of the way, Amware offers an efficient and affordable logistics alternative that provides measurable cost savings. At Amware, our company is crafted around one important principle: to provide you with the personalized service, secure environment and complete accountability to become your full service logistics partner.

Any logistics company can meet your expectations.
We won't quit until we exceed them.
